SKILLS

- Web Development
- Mobile Application Development
- Software Testing (QA)
- Object-Oriented Programming (C, C++, Java, python)
- Data Structures
- Network Configuration

LANGUAGES

- Sinhala (Fluent)
- English (Intermediate)

SOFT SKILLS

- Teamwork
- Problem solving
- Willing to learn
- Adaptability
- Time Management

PROFILE

Motivated IT student seeking an internship where I can contribute my technical skills in software development and problem solving, while leveraging a basic understanding of business and commerce concepts to support organisational objectives and add measurable value.

EDUCATION

Bachelor of Science Honours in Information Technology 2023- Present

Specialized in Information Technology

FOC | Sri Lanka Institute of Information Technology

Student id: IT23628540

General Certificate of Education (Advanced Level) Examination 2022

Commerce stream

General Certificate of Education (Ordinary Level) Examination 2019

Achieved five 'A' passes, including Mathematics and Science

COURSES

- Communication Skills in English for Careers – NIBM

Enhanced professional communication abilities, collaborative team interaction, and presentation skills, including public speaking for workplace environments.

- Association of Accounting Technicians (AAT) Sri Lanka

Completed AAT Level 2

Gained knowledge in accounting, finance, taxation, and business management.

PROJECT

campusgedara - Student Living & Academic Support System

- Developed a full-stack MERN application to streamline student accommodation, dining services, and campus resources.
- Engineered a real-time facility booking system with smart seat occupancy tracking and crowd prediction tables.
- Integrated Google Gemini AI to provide budget-based accommodation package recommendations and automated note summarization.
- Technologies Used: React.js, Node.js, Express.js, MongoDB, Tailwind CSS, Socket.io, Gemini AI, JavaScript

Just Yummy - Online Food Ordering & Delivery System

- Developed a full-stack Java-based online food ordering and delivery system using the MVC architecture.
- Implemented secure user authentication, menu browsing, shopping cart, checkout process, customer reviews, and an admin dashboard for order and inventory management.
- Built using JSP, Servlets, and JDBC with MySQL for efficient CRUD operations and database integration.
- Technologies Used: Java, Servlets, JSP, JDBC, MySQL, HTML5, CSS3, JavaScript, Bootstrap, Font Awesome

FlexiHire - University Freelancing Platform

- Contributed to the development of a full-stack MERN-based freelancing platform designed specifically for university students to connect with clients and find project opportunities.
- Included modules for student/client profile creation, project posting & applications, real-time messaging, role-based access control, and admin moderation.
- Integrated the frontend, backend, and MongoDB database with secure token-based authentication and input validation. Technologies Used: React.js, Tailwind CSS, Node.js, Express.js, MongoDB, JavaScript, JWT, REST APIs

Smart Campus Hub - University Resource & Incident Management System

- Developed a full-stack university platform for resource booking, maintenance ticketing, and event notifications.
- Implemented booking conflict prevention, role-based workflows, and technician communication via comments.
- Integrated secure JWT authentication and Google OAuth 2.0 for Admin, Technician, and User access control.
- Built using React.js, Node.js, Express.js, and MongoDB with a responsive frontend using Tailwind CSS.

Personal Wellness App

- Developed a native Android application using Kotlin to help users manage and track daily tasks efficiently.
- Implemented features for creating, editing, and deleting tasks with persistent local storage for offline use.

Bus Tracker App

- Developed a cross-platform mobile application to enhance user engagement and streamline core functionalities.
- Implemented interactive UI components and integrated backend services to handle data efficiently.
